EDUCATION

Sahyadri College of Engineering and Management, Mangalore	2023 – Present
Bachelor of Engineering in Computer Science	CGPA: 8.92
Hanumant Benne PU College, Kumta	2021 – 2023
Pre-University Course (PCMB)	93.83%

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, TypeScript, HTML, CSS

Frameworks & Technologies: React.js, Node.js, Express.js, MongoDB, MySQL, Tailwind CSS, LangChain, REST APIs, Socket.IO, JWT Authentication

Developer Tools: Git, GitHub, Postman, Vercel, Render

EXPERIENCE

Backend Developer Intern — Krytil Pvt Ltd **Jan 2026 – Present**

- Optimized MongoDB queries using indexing strategies, improving retrieval speed by 40% and reducing execution time.
- Reduced database load by 25% through query tuning and efficient data access patterns, lowering latency for high-traffic endpoints.
- Identified and resolved critical bottlenecks in backend operations, increasing API throughput and system reliability.

PROJECTS

- **LeetTrack – LeetCode Problem Tracker** — Live Link Developed a full-stack web application built for my personal use to efficiently track and manage LeetCode problems, featuring topic-based filtering, random question picker, and solved/pending status tracking. Built RESTful APIs and integrated MongoDB for efficient data handling, enabling seamless CRUD operations with real-time updates. Designed a responsive glassmorphism UI with dark/light theme support, improving usability and user experience. **Tech Stack:** React.js, Node.js, Express.js, MongoDB, Vite, CSS
- **Chats App** — Live Link Developed a real-time chat application supporting one-to-one and group messaging with online presence using WebSockets, handling 500+ messages per session with sub-second delivery. Implemented JWT authentication and REST APIs enabling secure communication for over 1k registered users. **Tech Stack:** React.js, Tailwind CSS, Node.js, Express.js, Socket.IO
- **AI Resume Analyzer** Built an AI-powered platform that evaluates resumes against job descriptions and generates structured feedback with relevance scores, significantly reducing manual screening effort for recruiters. **Tech Stack:** React.js, Tailwind CSS, Node.js, Express.js, LangChain, Ollama
- **Doubt It** Designed an academic doubt-solving platform enabling structured posting and threaded discussions. Engineered an optimized relational database schema that improved query organization and reduced response time. **Tech Stack:** React.js, Tailwind CSS, Node.js, Express.js, MySQL

PROBLEM SOLVING

Solved 290+ Data Structures and Algorithms problems across LeetCode and coding platforms, demonstrating strong proficiency in algorithms, complexity analysis, and backend-oriented problem solving.

OPEN SOURCE CONTRIBUTIONS

- Contributed to multiple production-grade open source projects by implementing full-stack logout functionality (ChatterSpace), improving authentication UX (FARMLOC), strengthening security with JWT (Code Clarity), and integrating a Gemini-powered AI chatbot (InfantCare).

CERTIFICATIONS

- **Postman API Student Expert – Postman** — Certificate
- **Open Source Connect India 2025 – Contributor** — Certificate
